

The Till Bass

The two most common questions I get are "Do you make basses?" and "Do your guitars come in black?". Well, I can finally answer yes to one of them. And so it is my pleasure to introduce you to the new Till Bass Guitar.

The Till Bass is currently available on a custom order basis only because they keep selling before I finish them. But as I work more into my schedule I'll post them right here.

My first bass model is like the big sister to my TG-250 "Lady on the Beach" guitar model with many similar construction details like a glued in neck and semi-hollow body. This first bass model features the popular 34 inch scale with four strings. But you can expect a full range of lengths and strings in the near future.
