

## People, Places and Things

I've gotten to meet some very interesting and talented people since becoming a guitar builder. Musicians, for sure. Other builders and amp guys too. I've been hearing some of their names since I was a kid. Others are still trying to get their name out there, like me.

I meet people from all walks of life in this business. And it's my pleasure to introduce you to some of them and their work here.

### Seymour Duncan Pickups

I can't say enough about Seymour's pickups. They define the tone of my guitars more than anything else. I go to his website for schematics, cool interviews, discussions on tone... very educational.

### Fat Congas

These guys make the bitchenest hand drums ever. Furniture quality percussion pieces that will look great in any room of your house. I love my cajon!

### Lady Tie Di's Eclectic Emporium of Great Goods and Services

Creative, friendly, thoughtful. A jewel on the California coast.

### Boo Boo's Records

San Luis Obispo, Ca. This is one cool record store. They've got it. If they don't, they can get it. But, don't worry, they've got it.
